SUCCESS**

Turn for your future.

VISION

Changing lives and enriching communities for a better world.

MISSION

- We deliver superior products and services that benefit society, and shape future generations of leaders and thinkers.
- We care for the safety and health of our people, and we believe in developing their talents through empowerment and enabling them to maximise their potential.
- We grow our businesses to deliver sustainable and responsible shareholder returns while ensuring that we continue to protect our environment.
- We must be bold in technological innovations to be market leaders in our core businesses.
- We will leverage on the synergies within our business ecosystem to create unique product offerings.

EDUCATION CHARTER

- We inspire students and staff to lead, share and serve.
- We create a community in which learning, teaching and research are encouraged, enabled and enjoyed.
- We promote critical thinking, independent learning and creative problem solving.
- We nurture individuals to be ethical and responsible global citizens.
- We share our success with stakeholders and the community we serve.

INTRODUCTION

Welcome to KDU.

Discover an institution that combines knowledge with experiential learning that goes beyond classroom teaching. Our education approach takes on real-world perspective, where our students are encouraged to embark on real-life projects that not only focus on hands-on learning but also education that will help them develop leadership and interpersonal skills, ensuring that they hit the ground running and become graduates who think, do and innovate in order to cater to the needs and betterment of the world we live in.

Here at KDU, we have nurtured many bright and passionate minds who have contributed to society in varieties of ways. We provide a platform for practical, impactful ideas to be conceived and incubated. Our global connections open the minds of our graduates and broaden the perspectives of our future generations.

A pioneer in providing private tertiary education, KDU has seen thousands of spirited and hopeful youths from different background, culture and countries teeming its corridors of vibrant campuses in pursuit of quality education for the past 35 years. As the first institution to have a purpose-built campus, and the first to offer twinning programmes in the nation, KDU is proud to have over 45,000 successful alumni since its inception. Some of whom, include corporate leaders, entrepreneurs and celebrities around the globe.

KDU has two campuses in Selangor – KDU University College in Utropolis Glenmarie and KDU College in Damasara Jaya, and are part of Paramount Education.

ENTREPRENEURIAL SPIRIT & WORKING WITH COMMUNITIES

Richard Branson, Mark Zuckerberg and Elon Musk are entrepreneurs who are highly enthusiastic, creative problem solvers, risks takers who learn from failures and thrive on challenges. At KDU, we foster these eminent traits by encouraging our students to think outside the box, be innovative in developing their business sense and to cultivate entrepreneurial ideas into impactful action.

Making Monster Impact

In an effort to spur and accelerate the students' entrepreneurial mindset, the School of Computing and Creative Media has established a development, publishing & commercialisation initiative called Daikaiju Studios, an avenue where staff and/or students form development teams to take on a variety of projects. One of the many success stories was in 2015 – when a group of KDU Game Development students entered a competition to develop a mobile game based on an upcoming animated TV series called Ejen Ali. The students won RM100,000 as a development start-up capital and are currently incubated within the studio. Another one of the initiatives of the studio is to produce original content. As of today, there are two registered digital game IPs currently in development.

Fine Appreciation of Modern Malaysian Cuisine

An entrepreneurial project of the School of Hospitality, Tourism and Culinary Arts, Dewakan Restaurant is currently Malaysia's rising star in the fine dining scene. Named after the word 'Dewa' for God in Malay and 'Makan' which means 'to eat', Dewakan is looking to change the way we understand Malaysian cuisine by presenting scrumptious and enticing plates that are sure to delight our taste buds. Dewakan believes that food is symbolic of love and the restaurant looks to celebrate the bountiful blessings given by our land through a plethora of innovative courses. This successful entrepreneurial project exists through the vision and passion of KDU culinary lecturer and author of *Redefinition: Molecular Cuisine*, Chef Darren Teoh.

Turning Designers into Designpreneurs

The growing phenomenon of entrepreneurial designers has given birth to designpreneurs. Designers are normally associated with artistes and visual-makers who tend to be wrapped within their own creative process and creation. However, designers have innate entrepreneurial sense which allows them to expand, experiment and broaden their designs within the commercial, marketing, industrial and trading enterprise. The Entrepreneurial Design students of the School of Communication and Creative Arts understand this concept the most. They are taught to sharpen creative and personalised designs, as well as to market these designs by integrating advanced creative works with business strategies. Through the annual Designpreneur Faire, final year students will showcase and commercialise brands and products they have produced during the period of their studies.

From Class to Café

Come lunch hour, the alluring smells of mouth-watering desserts and pastries at KDU's Café Eighty Seven are brought to you by the School of Hospitality, Tourism and Culinary Arts' bakery students. The café allows students to be involved in the process of preparing and baking the savouries and pastries for the café, as well as managing the ins and outs of a business model. The students are tasked to prepare sandwiches, tarts and a variety of breads, and they are able to witness the sales of their own culinary creations for the day. This not only allows them to work in the latest well-equipped kitchens but also to participate in real café environment. You can also get some of the best brewed coffee to go with your delicious pastries!

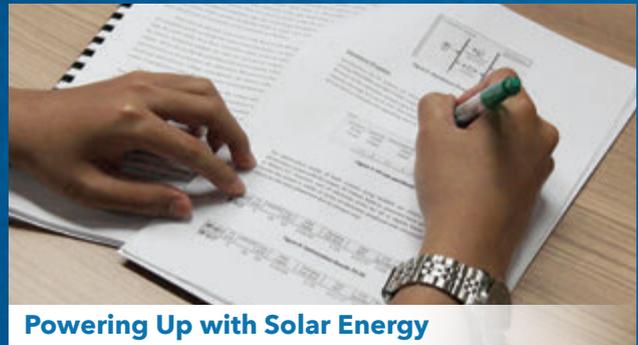

WORKING WITH & WITHIN COMMUNITIES

One of the most vital traits of real-world education in parallel with real-world needs, is to work with and within communities. At KDU, we believe that the communities around us play an important role in shaping and influencing future leaders and professional businesses. We interact with variety of communities and imbue our students the skills required to work with these communities effectively.

Corporate Social Responsibilities

Initiatives that benefit society by corporate enterprises are important in ensuring that the business world remain connected to its own corporate conscience for better environment and better communities. One of the CSR projects initiated by KDU students include the Pre-United Club's efforts of raising more than RM50,000 for the University Malaya Medical Centre (UMMC)'s Children Cancer Fund through its fundraising activities and initiatives. An on-going project since 2010, some of the initiatives from the club include raising funds through tickets sales for musical showcases, food carnivals, competitions such as bowling tournaments and more.

Powering Up with Solar Energy

Putting what they learnt into practice, Tharmaraj A/L Vilosamy, Tan Kin Sun and Vinodkumaran, three students from School of Engineering undertook a feasibility study on alternative power sources for Kampung Sesapan Batu Minangkabau. The students proposed and designed a green energy system, which will allow the remote village to produce solar energy to generate electricity for the entire area. Through this hands-on project, the students not only improved their understanding of the utilisation of renewable energy and honed their technical knowledge, but also provided the village with a useable, cost-effective and sustainable solution.

Bridging Academia with Industry

The School of Business ensures students obtain real-life learning experiences by bridging academia with industry, through partnerships and collaborations.

Digi Cooperative Education Programme

An industry partnership through the adoption of the Introduction to Business module where students receive on-the-job structured learning experiences in relevant operational areas within the telecommunications industry.

Growing Banking Sector: AICB collaboration with KDU

The Asian Institute of Chartered Bankers (AICB) signed an academic partnership with KDU to groom and nurture the next generation of banking graduates. The demand for talented and skilled individuals in financial sector is rising and this partnership is an example of realising the needs within a rapidly changing environment in the banking industry.

The Edge Education Foundation – 'Money & Me' Youth Financial Empowerment Programme

Incorporating relevant aspects and the spirit of corporate social responsibility, our students volunteered to become facilitators to reach out and inculcate the concept of 'financial literacy' to school students.

BUSINESS

Grooming Business Leaders for the future

When students graduate from KDU with a business degree, they are ready to compete and succeed anywhere in the world. At KDU, we ensure that our students are armed with the knowledge, insights and skills, and empowered with experience, so that they stand out in our ever-evolving globalised economy and help create an economically prosperous tomorrow. The academic experience at KDU is designed for students who not only desire to study business, but also to build the characteristics and confidence necessary for a real world experience. Our focus on communication skills, emotional intelligence, identifying strengths and pursuing passions prepare them to become driven and intuitive leaders.

WHY CHOOSE KDU?

KDU University College's School of Business drive a strong focus on offering real world and experiential learning for, as well as developing entrepreneurial skills in students. Students are given opportunities to understand business organisations, systems and processes from a simulated model, learn from captains of industry, and work with industrial partners on real-world projects – giving them a head start in honing their business sense and sharpening their skills. Our focus on communication skills, emotional intelligence, identifying strengths and pursuing passion prepare them to become driven and intuitive leader.

Obtained desired job, run own business, further study

Over 100 companies for student internships

Diverse student population from over 18 countries

A purpose-built Entrepreneurialism Center

Industry-Aligned Curriculum with input from Industry Advisory Panels

45% of faculty members are with industry experience

Programmes accredited by Professional Bodies

Faculty members are active in Industry Research, Corporate Training, and Consultancy

REAL WORLD EDUCATION WITH INDUSTRY

Students at KDU's School of Business are driven to be industry-ready. Essential to their academic learning and experience are our collaborations with industry partners, all designed to ensure our students get an edge above others even before they graduate.

Industry Cooperative Education Programme

Industry partnership through adoption of specific module at KDU School of Business provides our students an opportunity to network with their potentially future employers and apply classroom learning in real-world situations. In most cases, students will go through a series of training modules – from sessions on financial literacy to retail and customer service insights, people management, and other relevant operational areas. The holistic learning eco-system enables students to create and execute their own business plan, which forms part of the practical student assessment throughout their education journey.

Revolutionary Business Simulation

As the world of business transforms rapidly with the adoption of digital economy, the paradigm shift has resulted in greater demand for organisation with soft skills and entrepreneurial mindset. Students' adaptability of this new era would enhance their innovativeness and productivity, hence contributing in the society development.

At KDU School of Business, students are put into business simulated environment at our very own Entrepreneurialism Centre, guided by certified EuroPEN-PEN International trainers and are led by experienced Malaysia Business Angel Network (MBAN) investor. The simulated set-up allows students to use various web-based applications including the Simplified Business System (SBS) trading platform, human resources, administration and marketing platforms, teaches them various methods in facing the VUCA (Volatility, Uncertainty, Complexity and Ambiguity) world, taking calculated risks and learning from failures.

KDU Job Shadowing Programme

At KDU, we value the need for students to experience the real world instead of just the classroom education. Therefore from as early as Year 1 of their Bachelor's Degree studies or Year 2 of their Diploma studies, students will have an opportunity to experience the daily operations of a company as well as observe first hand of the challenges that are faced in the respective professions. Through KDU Job Shadowing programme, students will be able to gain insights about the industry as opposed to just reading general job descriptions.

Industry Expert Speakers Series

The Industry Expert Speaker Series is comprised of various guest lectures, workshops, talks and forums, where experts across various industries and organisations share their thoughts, knowledge and experiences with our students. Past speakers include Dato' Teo Chiang Quan (Chairman of KDU Board), Dr. Robert Bong (Chief Advisor of Malaysia Blue Ocean Strategy Institute), Dato' Dan E Khoo (Vice President – Strategy, Multimedia Development Corporation), Mohd Ibrahimuddin Mohd Yunus (Managing Director and Chief Executive Officer of Petronas Dagangan Berhad), Melissa Ng (Head of Service Marketing, Nissan Malaysia and IndoChina), Suretran Somasundram (Chief Executive Officer, Snack Boss Sendirian Berhad), and Marwan Ma'som (Founder, SwiftCow Malaysia), just to name a few.

HUMANISTIC ENTREPRENEURIALISM @ KDU SCHOOL OF BUSINESS

In today's knowledge economy, an education qualification is not just about obtaining a degree that would typically impart the necessary theories and concepts. A shift in the mindset would be necessary in order to contribute towards nation building as well as remain competitive in today's challenging environment.

At KDU School of Business, we implore to cultivate the shift in the mindset of our faculty members and students by adopting the Humanistic Entrepreneurialism (HE) Model. Human Governance and Growth Mindset principles form the base in developing the Model. We continuously fine-tune the Model along with our research in Entrepreneurship. The current HE Model covers 3 key elements: Brain, Eco-System and Mindset. With the right Brain (skill) supported by the right Eco-System (process), we believe the right Mindset (thought) can be nurtured.

Throughout a student's journey in KDU School of Business, their thought process is constantly being challenged; be it within the four walls of a classroom or extra-curricular activities or industry networking sessions. The various teaching and learning touchpoints would encourage them to be resourceful, persevere in any situation; be resilient and passionate in whichever tasks they put their mind to. Ultimately, KDU School of Business strives to nurture a generation of leaders that will have a different worldview through the humanistic lens.

***“FIXED MINDSET
BLINDFOLDS OUR TRUE CAPABILITIES,

HUMANISTIC GROWTH MINDSET
HARNESSES OUR POTENTIAL CAPABILITIES, HUMANLY...”***

KDU STUDENT VOICES

LOO SUK MUNN (BACHELOR OF BUSINESS (HONS) WORKING AT NESTLE)

Throughout my 3 year tenure with KDU School of Business, I have faced many obstacles which have groomed me into who I am today. The journey was indeed a learning process that was filled with endless shower of joy and glee amidst the occasional learning setbacks which I am grateful for.

My learning curve was further accelerated by faculty members who are passionate in dedicating their time to their profession. They were the ones who taught me that there is no wrong in experiencing failures in life as long as I make an effort to improve and be better than who I was yesterday.

CHIAM TAN PEI PEI (BACHELOR OF ACCOUNTING (HONS) WORKING AT KPMG)

KDU's Bachelor of Accounting (Hons) has helped me tremendously as it pushed me to go beyond my limits and helped me to discover and develop my personal capabilities. The intensity of the course has made me learn how to manage my time effectively. Though challenging, I appreciate the guidance and support provided by the faculty members within the School of Business. I am now working as an auditor in KPMG and am truly grateful for all the support and helping hands I had received while pursuing my studies in KDU University College. I will always remember all the great memories I had together with my lecturers and friends, and continue to strive for excellence.

SAILESH GOPALAN (BACHELOR OF BUSINESS (HONS) WORKING AT BOLLORE LOGISTICS MALAYSIA)

It gives me great pleasure to say with pride that I have completed my Bachelor of Business (Hons) from KDU University College. The relationship between faculty members and students are very cordial, which gave me opportunities to excel in my area of interest. These three years spent here were splendid and has helped me grow professionally and personally. Today, with all the knowledge and experience I've learned at KDU School of Business, I stand tall as a Senior Supply Chain Executive at Bollore Logistics Malaysia, handling key clients in the Aerospace industry.

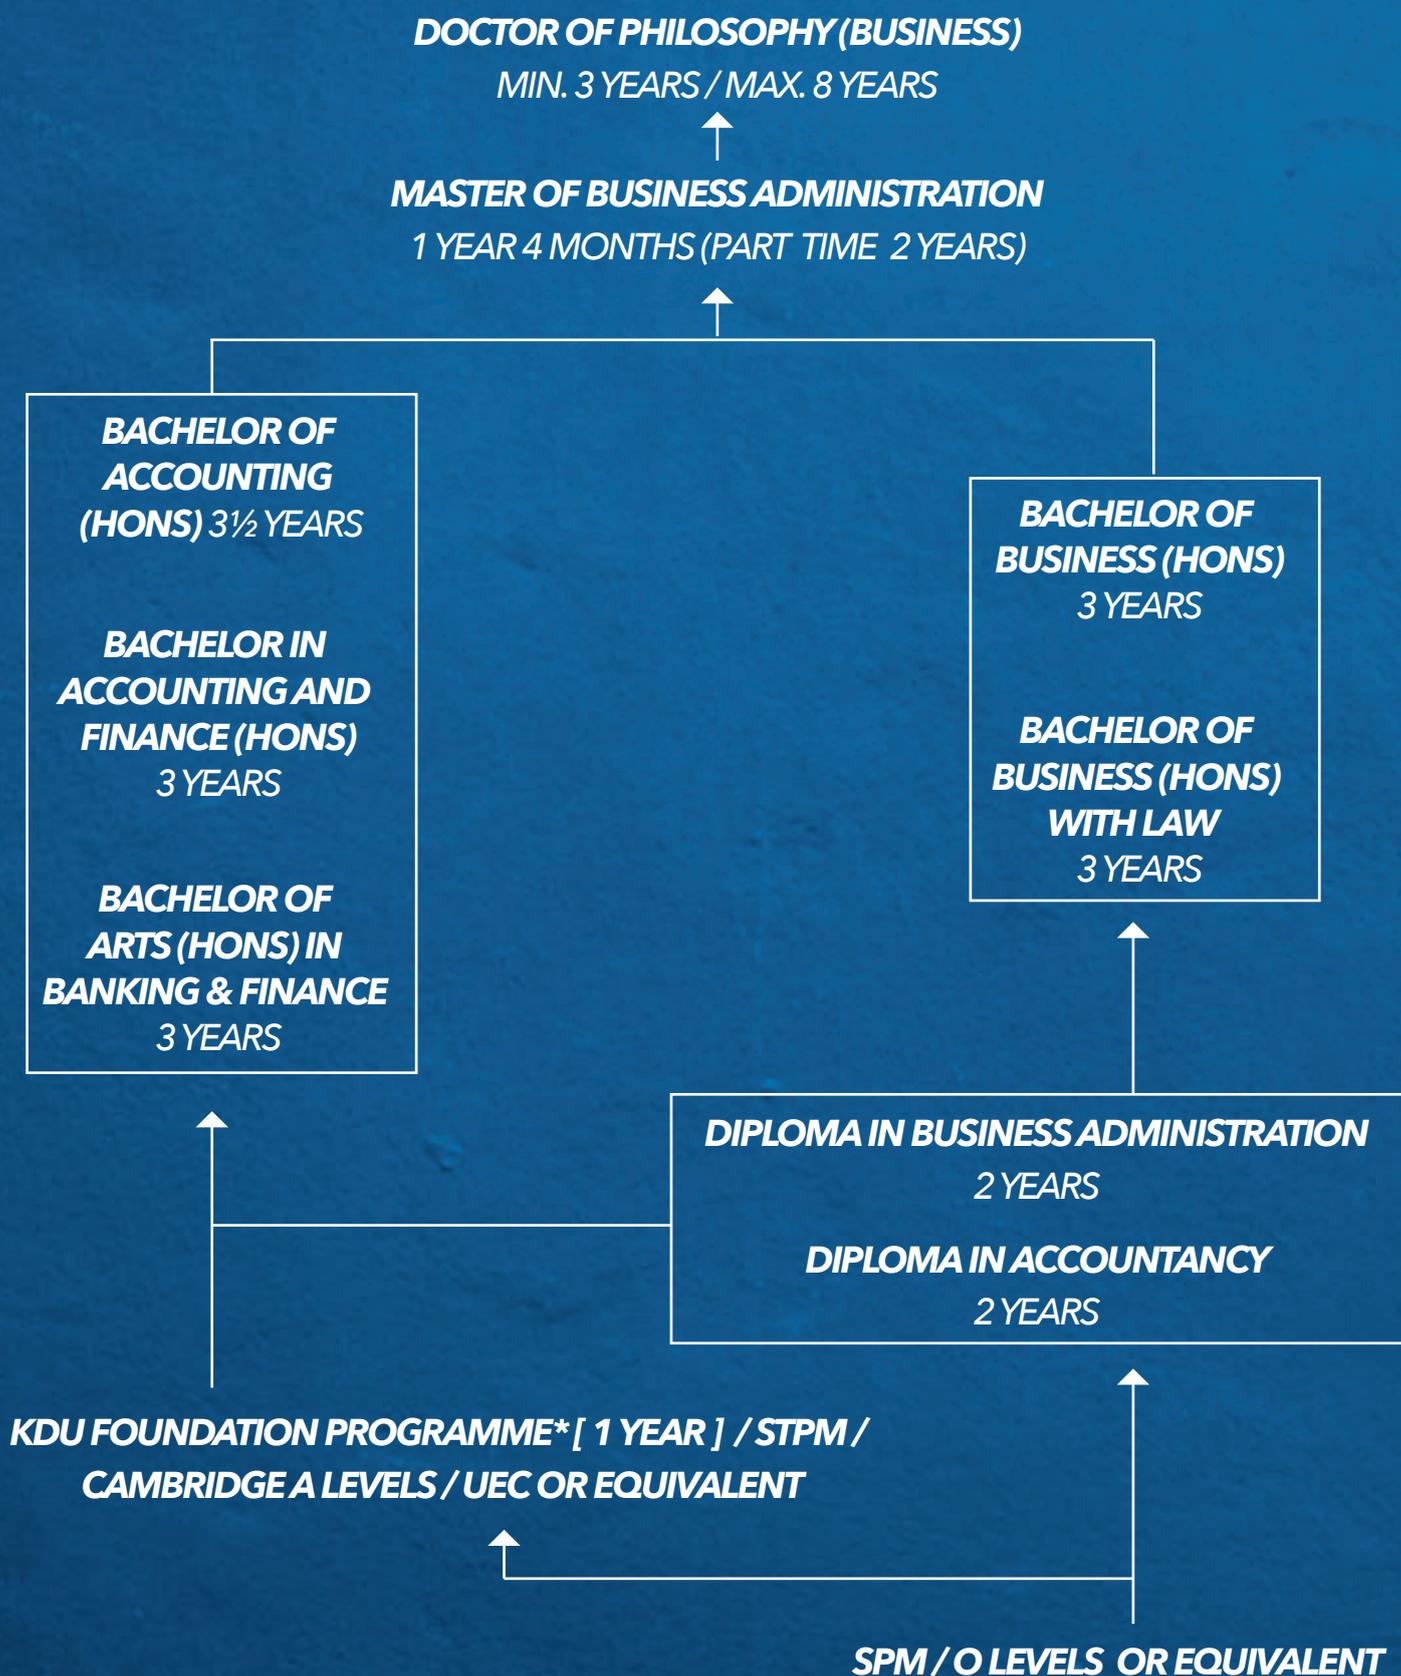

PEARLJIT SINGH (BACHELOR OF BUSINESS WITH LAW (HONS) WORKING AT REHDA)

KDU University College has lived up to my expectation in providing real world education to meet real world needs. Throughout my journey at the School of Business, I have benefited a lot from gaining the right depth of knowledge, understands the relationship between business and law in the management of most businesses today. After securing my internship in my very first interview, I was then offered a full-time position at the Real Estate And Housing Developers' Association Malaysia (REHDA Institute), as an Events, Business Development and Marketing Executive. All these would not have been possible if it weren't for the guidance and amazing dedication shown by the various people I have met and learnt from throughout my time in KDU School of Business. If you aspire to succeed in your career, KDU University College is the place to be.

STUDY ROUTE

BUSINESS

*Specific foundation programmes that meet the entry requirement

FOUNDATION STUDIES (ART & TECHNOLOGY)

**Multidisciplinary.Flexible.
Stimulating independence & creativity.**

The KDU Foundation Studies (Art and Technology) is a one-year multidisciplinary foundation programme aimed at preparing students for further study in the fields of

- Game development
- Business
- Communication
- Computing

DIPLOMA IN ACCOUNTANCY

The first step into the world of accounting

Students start their journey into the professional world of accounting by getting familiar with various disciplines such as taxation and commercial law. In this programme, students learn the ropes and gain the foundation necessary to continue onward with their choice of bachelor's degree in business, accounting or even a professional accounting qualification.

Students are also able to fast-track into obtaining the ACCA qualification, as this programme qualifies for an exemption of four papers.

Upon successful completion of this programme, students will be able to articulate seamlessly into a KDU business degree programme, or to Griffith University (Australia), the University of Northampton (UK) and Glasgow Caledonian University (UK).

Upon completion of the programme, graduates will be granted exemptions from the following recognised professional body:

- **ACCA – Exempted from 3 ACCA Fundamental papers**
- **CIMA – Exempted from 3 CIMA Certificate in Business Accounting papers**

PROGRAMME STRUCTURE

BACHELOR OF ACCOUNTING (HONS)

Develop Technical & Analytical Skills to Kick-start a Career in Accounting

The importance and significance of accounting reports is integral to conducting business, making accounting knowledge crucial to being a competent corporate executive.

KDU's Bachelor of Accounting (Hons) programme, designed in collaboration with the Association of

Chartered Certified Accountants (ACCA), is the quickest and most sensible choice towards earning an internationally-recognised professional qualification. The final year of the programme is designed to cover the syllabus of the ACCA's professional papers, preparing the students specifically for the ACCA Professional level exams later on.

Upon completion of the programme, graduates will be granted exemptions from the following recognised professional body:

- **ACCA – Exempted from all 9 ACCA Fundamental papers**
- **CPA Australia – Exempted from 6 Foundation level papers**
- **CIMA – Exempted from 10 CIMA papers and to take the balance 6 papers to complete the professional qualification**

 - Exempted from 13 CIMA papers and to take the balance 3 papers to complete the professional qualification
 - *E3 (Strategic Management), P3 (Risk Management) and Strategic Case Study*

* relevant subjects from respective specialization must be taken during study

What should you expect?

- Faculty members from highly experience academicians and industry practitioners
- An MBA that charts you through to a Professional qualification
- Co-creation between faculty members and yourself in discovery and knowledge generation
- International and professional perspective
- An environment that is open and keeps you curious with a desire to meet new challenges

ENTERPRISE RISK MANAGEMENT

Enterprise Risk Management (ERM) is a postgraduate programme offered in collaboration with the Institute of Enterprise Risk Practitioners (IERP®). The ERM track is taught by ERM qualified industry practitioners which makes it the **1st programme in the World** to have done so. The affiliation with IERP ensures ERM specialisation curriculum focuses on practical and holistic aspects of enterprise risk management.

Why ERM?

- A key business discipline which supports the principles of commercial sustainability as well as organisational resilience and agility.
- Supports the requirements of corporate governance, enhances corporate strategy, and adds significant value to any organisation's performance.
- Equip students with the practical tools to be able to successfully guide their business strategically and operationally.

Our affiliation with Institute of Enterprise Risk Practitioners (IERP®) ensures that the programme focuses on practical and holistic aspects of enterprise risk management.

This ERM track offers graduates 6 modules exemptions out of 11 modules exemptions from the IERP®'s Enterprise Risk Manager Professional Certification for all relevant subjects* undertaken during the programme, as well as participation as a member at the IERP at a nominal fee.

DOCTOR OF PHILOSOPHY (BUSINESS)

As Malaysia continues its progress into a knowledge based economy, the understanding of business principles is paramount and inevitable as this knowledge will be used to produce tailored made business solutions to cater to the local economy. A Doctorate in Business will develop potential expertise to adapt to current business needs and changes as the programme employs a digital and technology-based approach to supervision and independent learning.

Postgraduates undertaking the PhD (Business) at KDU are required to complete an original research project under the guidance of an expert supervisor. The research project prepares graduates to develop subject expertise in their unique, chosen field.

At KDU, the PhD (Business) pulls expertise from various Schools in KDU and emphasizes a multi-disciplinary, cross-functional approach to harness the novelty of the student's project in delivering business value. The programme employs a digital and technology-based approach to supervision and independent learning.

CAREER OPPORTUNITIES

- Management
- Business Owners
- Start-ups
- Lecturer
- Postdoctoral Fellow
- Research Associate

PROGRAMME STRUCTURE

RESEARCH PROPOSAL

- Students will systematically structure and develop their research by developing a research proposal, which would guide the student through the entire research process.

PROPOSAL DEFENCE

- A presentation session chaired by KDU with invited panel of examiners to ensure the candidate is able to articulate their research ideas and plans, as well as having the necessary skills to carry out research activities as proposed.

RESEARCH

- Upon the approval of the research proposal, under the guidance of their supervisors, student will work independently on their research projects.

THESIS

- Upon completion of their research, students will document the research project and process in a thesis. Typically, thesis for PHD should not be more than 80,000 words.

VIVA VOLCE

- Upon completion of research and thesis, candidate will undergo an oral presentation, chaired by experts in the field.

STUDENT LIFE

Vibrant Community

Being on campus is one of the most exciting phases in an individual's life. A university campus is a safe and encouraging space for students to come together to learn, be inspired and spend time with their peers within a vibrant and conducive environment.

At KDU, students can opt to run for the KDU Student Council, a student-elected body which serves as a bridge between the university management and students, or get involved in the numerous clubs and societies available – from dance to debate, sports to student entrepreneurship, games to culture.

KDU's Student and Alumni Centre (SAC) creates and maintains the vibrancy required in a student's life in order to enhance positive experiences. SAC also looks to provide the highest level of quality support and welfare by cultivating five fundamental needs: social, mental, physical, emotional and spiritual aspect in order to maximise both academic and personal development. In line with the Malaysia Education Blueprint (MEB), the KDU YOUTH Empowerment Plan includes five key holistic initiatives to anchor students to adopt healthy lifestyle and maximise learning experiences.

FITSPIRATION

Injecting a dose of fitness into students' daily lives, this initiative encompasses all activities that will feed and boost students' body, mind and soul, such as yoga, basketball, badminton, various talks on wellbeing, and more.

CAREER EXPLORATION

This initiative helps students explore the various internship or job options that fit their interests, skills, and abilities. Through this initiative, students can enjoy career enrichment talks, industry engagements as well as the career placement fair.

SUSTAINABILITY

The Sustainability initiative is to create awareness for students to become conscious of the importance and need to sustain the world we live in. Students and staff are encouraged to waste not and to live a green life.

HATCH UP

Hatch Up aims to facilitate students in learning to develop entrepreneurial skills, by supporting creativity, self-generated ideas and efforts. This action plan intends to give KDU graduates a chance to see their ideas take shape in reality, with support from the university, and further fuel their journey to be a self-made success by developing an entrepreneurial mindset – driven, resourceful, persistent, and above all, dedicated to a cause to call their own.

CULTURATION

Diversity is a big part of who we are as a society. Culturation aspires to encourage students to appreciate these differences and understand how culture influences the way they see the world. Activities students can look forward to include diversity and inclusion camps, cultural exchanges and such.

Culturation: Malay Cultural Society Homestay

CSR Activities with a Local Orphanage

Outdoor Activities at the PAC Camp

Career Exploration: Internship Fair

Strikes for Charity - Bowling Tournament by Pre-United Club

Culturation: KDU International Students Society visits Tugu Negara

An evening with Iron Chef Thailand winner, Tom Halpin, organised by Club Grapevine

Career Exploration: Students visit BFM radio station

2015 Sports Carnival Launch with YB. Khairy Jamaludin, Minister of Youth and Sports, Malaysia

Dance routine by Performing Arts (PARTS) Club

Peer to Peer Training Camp

Voices of Moderation Youth Campaign

Culturation: KDU 2nd International Student Entrepreneurship Conference

KDU Sustainability Initiative

Blood Donation Drive by Leo Club

Feed the Soul Fest by the School of Communication & Creative Arts

CAMPUS LIFE & FACILITIES

KDU University College, Utropolis Glenmarie

KDU University College's 10-acre flagship campus at Utropolis Glenmarie was designed around the philosophy that learning is pragmatic and can happen anywhere!

The campus comprises of collaboration spaces and discussion cubes, along with state-of-the-art lecture halls and classrooms to allow the most productive conversation and dialogue. The extensive teaching facilities include the latest and fully equipped culinary kitchens, production studios and labs, student lounges and comprehensive Wi-Fi coverage.

We also understand the need for large spaces in order to nurture out-of-the-box ideas and thoughts, therefore there are open spaces abound with large atrium and multipurpose court. There is also a landscaped amphitheatre overseeing the multipurpose

court for spectators to get an up-close view of various sporting activities, gathering and events.

Just next door, the 21-acre development include the two-storey Marketplace with various retail outlets, complete with alfresco dining, entertainment outlets, grocers, banks and other services, as well as SOHOs (small office-home offices) and Utropolis Suites apartments, making it a beacon for residents and business executives in the neighbouring areas.

Utropolis is a live-and learn, work-and-play integrated university metropolis, modelled after the likes of student cities such as Oxford (UK) and Boston (USA).

KDU is a certified green campus with 16.3% green foot print. The campus has naturally-ventilated courtyards and corridors, and is fitted with various energy-efficient systems.

Our Student Residence is on-campus, comprising of a 7-storey block, with separate male and female wings, that accommodates up to 580 students.

The 50,000sq ft library encompasses three storeys, and includes a coffee bar, discussion areas and various learning pods.
